Congress Street, Winnsboro, SC 29180) and the newly constructed Ridgeway Community Center (1900 US HWY 21 S. Ridgeway, SC). The County currently does not have an access control system and CCTV cameras placed in these buildings. The purpose of this request for proposals is to provide the County with materials, labor, the ability to install access control locations and CCTV cameras at both locations. The solution must support active ID cards and include software/hardware that allows the County to produce, program and issue additional cards for new employees or to replace lost/damaged cards on-site. Responders are asked to include the option for 24/7 monitoring of the CCTV system. Though monitoring may be added as a later phase of the project. CCTV cameras must be able to catch anomalies such as falling off line, misalignment, poor pictures, not recording or lack of storage space. The County must have the ability to retrieve camera data within 30 days if needed.

Project Scope and Deliverables

Fairfield County (the County) is seeking to add access control locations and CCTV cameras to its newly renovated Courthouse and the Ridgeway Community Center currently under construction. Any recommendations should provide the County with maximum flexibility for expansion in the future. The access control system should offer maximum flexibility, ease of use and access management for users and system administrators. Once in place, the system should provide the County administrators with access that provides system status, door status, simple access programming capabilities, and detailed reports. The access control system should allow departments to manage their own accessibility. Administration feature should allow the administrator to create security groups, enroll users as individual or members of security groups and grant/revoke access accordingly.

Responders should conduct a review of the County current system to determine the upgrades with integrate. The new system should have the option to be able to interface with an intrusion alarm system, restrictions, etc. fire alarm systems, panic button system is highly desirable.
